

SuperCool Disc Brake Pads

For long time braking, whole brake system will get into very high temperature. The overheating make rider under high risk. ZENO's SuperCool brake pads offer the efficient cooling structure which keep the brake system in safety temperature range.

ZENO's SuperCool Pads are available for most popular brake on market from Simano®, Sram®, Avid®, Magura®, Formula®, Te ktro® and TRP®

- 2 different compound for choice
- All pads are sell in pare with spring

Pads Compound Feature

ZENO's SuperCool pads offer 2 type compound for different riding styles and verity conditions.

Semi-Metallic Pro

Semi-Metallic Pro which offer high stopping power for brake and durability as sintered pads. And work without with noise in all conditions. Especially for aggressive riding.

Organic

Organic pads, offer tender braking power, better brake feeling and working quiet. Suitable for most riding condition. For most rider this is the bast choice.
